GUIDED MISSILE AND ASTRONAUTICS INTELLIGENCE COMMITTEE

3 October 1962

MEMORANDUM FOR: Chairman, Guided Missile and Astronautics Intelligence Committee

SUBJECT: GMAIC Contribution to NIE 11-4-62

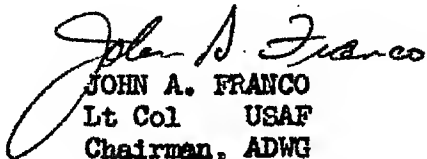

1. In response to GMAIC's memorandum, subject, same as above, dated 6 September 1962, the Air Defense Working Group met on 2 October 1962 and arrived at the following conclusions:

a. The air-to-air missile tables and the surface-to-air missile tables of GMAIC's "Summary Tables on Soviet Missile Characteristics" have been reviewed; attached to this memorandum are suggested replacement tables.

b. The Working Group recognizes that the surface-to-air missile tables, as published, do not reflect all source information and that some disagreement exists on these performance figures. It is the intention of the Working Group to undertake a review of all available information relative to these missiles to update, if required, performance characteristics of Soviet surface-to-air missiles. Progress reports will be submitted to GMAIC.

c. Pertinent NIE's have been reviewed, and it was agreed that the performance tables of air-to-air missiles and surface-to-air missiles, as published in NIE 11-3-62, are adequate for use in NIE 11-4-62.
